SUBJECT: Outside Agency: Open Space

PURPOSE: Outside agency referral for the placement of a sanitary facility on Open Space property.

CASE #: 13-113817 OA

Jefferson County Planning has received an Outside Referral from Jefferson County Open Space. Jefferson County Transportation and Engineering (T&E) along with Road and Bridge (R&B), have requested the use of the Open Space property located at the south west corner of Deer Creek Canyon Road and South Deer Creek Road. The proposed use of the Open Space land is for the placement of a Sanitary Facility.

The Road Way Safety Committee partnering with various biking organizations has identified this area to construct a pad for placement and screening of a port john. Maintenance of the site and facility would not be the responsibility of Open Space.

This referral is tied to the 2013 Traffic Safety and Drainage Project Site Approval Case No. 13-113226 SA, specifically the Deer Creek Road/Deer Creek Canyon Road Shoulders/Sanitary Facility project.

The submittal documents for this Site Approval Referral are attached to this email and can also be found at http://jeffco.us/planning/ under the Active Cases link (http://jeffco.us/planning/planning_T59_R176.htm) click Outside Agency and scroll down to find the case using the case number. All items for your review are located here electronically.

Please review the online documentation and provide comments to me by **August 21, 2013.**
