MULLER

Re: McIntyre Street (West 44th Avenue to West 60th Avenue) Conceptual Design
Public Open House Requesting Citizen Input

Dear Resident, Homeowner Association Representative or Business Owner:

The Jefferson County Transportation and Engineering Division and its Design Engineer, Muller Engineering Company, Inc. will be sponsoring a Public Open House to discuss the Conceptual Design of the proposed improvements on McIntyre Street (West 44th Avenue to West 60th Avenue). The time and the place for the open house are as follows:

Place: **Fairmount Elementary School Cafeteria**
15975 West 50th Avenue
Golden, CO

Time: **Tuesday, June 11, 2013, 4:30 PM to 7:30 PM**

The open house will be an "open hours" format (no formal presentation will be made). Members of the project team will be present to answer questions about the project. Feel free to drop by any time between 4:30 PM and 7:30 PM. A map is included at the bottom of this letter showing the location of Fairmount Elementary School.

The purpose of this open house is to present conceptual plans for corridor improvements along McIntyre Street from West 44th Avenue to West 60th Avenue, and to solicit citizen input on these conceptual-level plans. The proposed improvements may include two through lanes in each direction (northbound and southbound), on-street bike lanes, a raised median, curb and gutter, sidewalks and soft-surface equestrian trail. Following this public open house, Jefferson County will proceed with the preliminary design of segmental or elemental improvements in the corridor. Currently, there is limited funding and the County will be looking to prioritize improvements to match the most immediate needs.

Your questions and comments are welcome. We look forward to meeting with you on June 11th. For more information contact Gray Clark, Muller Engineering Company, Inc., at (303) 988-4939 or Brad Bauer, Jefferson County Transportation and Engineering Division, at (303) 271-8495.

Sincerely,

MULLER ENGINEERING
COMPANY, INC.
