## ***2002 Crash Frequency Location Summary Jefferson County, Colorado***

*Prepared by:*

**Jefferson County Division of Highways and Transportation**  
100 Jefferson County Parkway, Suite 3500, Golden, CO 80419-3550

February 18, 2004

Source:  
G:\Crashes\Reports\2002\crashreport\_2002

## **1.0 INTRODUCTION**

The purpose of this report is to list the crash frequency on Jefferson County roads during 2002. The crashes reported in this study include fatality, injury, and property damage only (PDO) type crashes with damages in excess of \$1,000. Crashes occurring on State Highways or on City roadways are not included in this document. The information in this report will be used to determine higher than average crash frequency locations on the County roadway network so additional safety analyses can be completed and roadway safety improvements can be recommended, if possible.

Due to limited funds available for safety improvements, the Jefferson County Division of Highways and Transportation addresses the most needed improvements based on this and other analyses to improve traffic safety within the County.

## **2.0 DATA COLLECTION**

### **2.1 Crash Data**

The data contained in this report was summarized from accident records compiled from the Colorado State Patrol crash reports and the Colorado Department of Transportation (CDOT) database records. Each crash is summarized by road name, address, and if applicable, intersecting street. The total number of crashes for each specific address or intersection is reported (total crashes) along with the total fatality, total injury, and total property damage only (PDO) crashes that occurred at that location.

## **3.0 CRASH LISTING**

The crash data contained in Table 3.1 of this report is a comprehensive list of all reported crashes that occurred within unincorporated Jefferson County during 2002. The data is organized either by the main roadway or by the street name that was on the crash report. If the crash occurred at an intersection, then the "Intersecting Street" field will be filled in. The crash data is summarized in alphabetical order and by address range. The only information summarized in this report is crash location, number of crashes and injury severity. All other information relating to the crashes contained in this report can be obtained through the Jefferson County Division of Highways and Transportation or the Colorado State Patrol.

Figure 3.1 displays the number of crashes by severity with prior year's crash listings. During 2002, there were 3 (.3%) fatal crashes, 366 (37%) injury crashes and 600 (62%) PDO crashes totaling 969 crashes on all unincorporated Jefferson County roadways.

Figure 3.2 displays a map of Jefferson County with the address ranges to aid in determining crash locations.

**Table 3.1**
