

# South Jefferson County Demographics by Census Tract

The following tables were developed by totaling information for the census tracts comprising the South Jefferson County area.

For 2000 demographics, the Census tracts most closely aligned with the community plan boundaries were: 120.22-120.24, 120.34-120.36, 120.38-120.57. Incorporated areas are minimal, so were not extracted from the numbers. Because there are so many tracts, numbers (like housing units) are totaled. Numbers like Average Household Size or Per Capita Income are totaled and averaged.

1990 Census tracts were: 120.07, 120.12-120.13, 120.15-120.17, 120.22, 120.24-120.25, 120.28-120.29 and the unincorporated portions of 120.11, 120.23 120.50 and 120.54.
