Jefferson County Open Space

Avian Census Data Sheet

Site:	Date:
Volunteers:	

POINT	TIME	SPECIES	# IN AT 50 METERS	# OUT AT >50 METERS	# BETWEEN	TEMP/WIN D	PRECIP/CL OUDS	COMMENTS

The census needs to be taken in the morning, two times per month, April through September and once monthly October through March.

At each Point take:

- **Temperature** degrees Fahrenheit
- Wind indicate whether wind is;

Calm - smoke rises straight

LT - Smoke drifts, leaves rustle

MED - Leaves and branches in constant motion, trees start to sway

HIGH - Whole trees in motion, walking difficult (census should not be taken at this time)

• **Precipitation** - "Y" or "N"

- List birds in species column only
- Indicate whether birds are in the 50 meter circle, outside the 50 meter circle, or seen in between points, or within the whole park.
- Record your names and the other volunteers working with you, time spent completing the survey and paperwork and travel time to and from the park.
