

How to search for Active Case Documents on the Jefferson County Planning and Zoning Web site

Go to the Planning and Zoning Permit Search web page: <http://jeffco.us/amandaltol/index.cfm?fuseaction=PZHome>

Choose to Search by: Address, Case Number, Development Application, or Zoning Permit

Search by Address

To search by **Address**, enter either the **House Number** or **Street Name** (*House Number is best*). If a Street Name search yields no results, try shortening or modifying. (For example, *US Highway 285* and *Hwy 285* yield no results, but *US Hwy 285* does.)

Click on **"Permits"** in the resulting window. (if no permits are associated with the property "None" appears in this column)

Click on the specific case number in the resulting window.

Click on **"View Public Documents for this case"** in the resulting window (if available).

Search by Case Number

To search by **Case Number**, enter the two digits before the dash in the first box. Enter the next six digits in the second box.

In the drop down menu, find the last two or three letters at the end of the case number and select those.

Choose Submit.

Click on **"View Public Documents for this case"** in the resulting window (if available).

Search by Development Application

Search for cases by status, type, area and date

Enter a time period (*hint: always select a start date different than the end date or no items will appear*)

Note: The search can be completed for either all types of cases or only one type of case, so if you are looking for a rezoning and a subdivision plan, you will either need to look through all case types or do two separate searches.

After making these selections, click the Submit button to start the search.

Case Status: Case Type:

Time Period for Search
Start Date: (First day of the month)
End Date: (Last day of the month)

Geographic Area: 

Choose Submit.

Click on the specific case number in the resulting window.

14824823 SA	8610 North Avenue	03/11/2014	1st Referral	Public Utility Co.	Ron Lean
-------------	-------------------	------------	--------------	--------------------	----------

Click on "View Public Documents for this case" in the resulting window (*if available*).

Description: Removal of Setback line

[View Public Documents](#) for this case.
