

SUPPLEMENTAL FORM FOR REPAIRS TO EXISTING ONSITE WASTEWATER TREATMENT SYSTEMS (OWTS)

Use this form to provide required information ONLY if the repair or replacement of an existing OWTS will NOT meet the minimum setback requirements in Appendix A, Table A-1 of the Jefferson County OWTS regulations. All proposed distances must be no less than existing distances.

INSTRUCTIONS: Complete this page and submit with FORM 100 and any supplemental documents. There are no additional fees required.

Property Address	
-------------------------	--

List All Setbacks That Do Not Meet the Requirements of Appendix A, Table A-1 (see example):

FROM	TO	REQUIRED	EXISTING	PROPOSED
<i>Proposed septic tank</i>	<i>Existing well</i>	<i>50</i>	<i>30</i>	<i>42</i>

STATEMENT OF APPLICANT

In support of this request for variance for the repair of an existing OWTS the applicant states the following:

- The setbacks in the above table are the only ones that do not meet the setback requirements of Appendix A, Table A-1 and are no closer than the setbacks that currently exist on the property.
- Due to the size, topography, location, layout, or pattern of development it is not feasible to install an OWTS that complies with the setback requirements of Appendix A, Table A-1.
- The installation of the proposed OWTS will provide no greater risk to the risk to the public health and environment than posed by the existing system.
- If a variance from the setback requirements is not granted it will not be possible to repair or replace the existing failing OWTS.

Therefore, the applicant requests that a variance from the setback requirements of Appendix A, Table A-1 be granted to allow the installation of the proposed OWTS.
