It's Important!

- Immunizations can save your child's life.
- Vaccination is safe and effective.
- ▶ Immunization protects others you care about from preventable diseases.
- ► Immunizations can save your family time and money.

Jefferson County Schools and Jefferson County Public Health Immunization Partnership

Call 303-232-6301 to make an appointment and get your school age child/children up-to-date on immunizations.

In Colorado, children can be exempted from immunizations for medical, religious or personal reasons. However, in the event of an outbreak, exempted persons may be subject to exclusion from school and to quarantine.
